DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Bradley Lytle on 9/11/2007.

The application has been amended as follows:

In claim 7, in line 8, after second function button, add **--both positioned between said display and said keyboard--**.

Allowable Subject Matter

2. Claims 1, 2, 4, 6 and 7 are allowed.
3. The following is an examiner's statement of reasons for allowance: Claims 1, 2, 4, 6 and 7 are allowable since certain key features of the claimed invention are not taught or fairly suggested by the prior art. In claim 1, "a pointing device configured to control a pointer appearing on the display, said pointing device is positioned between said display and said keyboard; and a first function button and a second function button that control an object chosen by said pointer appearing on the display, and a third function button that allows a screen displayed on the display to be scrolled are all positioned between said display and said keyboard wherein said pointing device is positioned on an opposite side of the apparatus to said first function button, said second function button and said third function button". Claim 7 is a method version of claim 1 and is allowed for the same reasons as claim 1. The closest prior art of record Fleck et al (6,977,811) however singularly or in combination fails to anticipate or render the above underlined limitations obvious.
